

2018 Sponsorship Opportunities

Hosted by Capital City Cyber Defense Network, a 501(c)3 organization.

BSides Tallahassee is the local conference of Security BSides, a community-driven framework for and by information security community members to present and participate in an intimate & collaborative atmosphere featuring discussions, demos, & interaction from participants.

By sponsoring the inaugural BSides Tallahassee conference, you are helping to promote the knowledge needed to better protect our community in today's increasingly connected world, arm citizens and professionals with information needed to stay safe in today's digital age, and bring the international BSides name to the Florida Panhandle area.
